OBJECTIVES AND DUTIES:

1. The Advisory Committee provides insight, perspectives, expertise and advice to the Director of the Census Bureau on the full spectrum of Census surveys and programs. The Committee assists the Census Bureau in developing appropriate research/methodological, operational, and communication strategies to reduce program/survey costs, improve coverage and operational efficiency, improve the quality of data collected, protect the public's and business units' privacy, enhance public participation and awareness of Census programs and surveys, and make data products more useful and accessible.
2. The Committee advises on topics such as hidden households, language barriers, students and youth, aging populations, American Indian and Alaska Native tribal considerations, new immigrant populations, populations affected by natural disasters, highly mobile and migrant populations, complex households, poverty populations, race/ethnic minorities, rural populations, and population segments with limited access to technology. The Committee also advises

on data privacy and confidentiality concerns, the dynamic nature of new businesses, minority ownership of businesses, as well as other concerns impacting Census survey design and implementation.

3. The Advisory Committee discusses census policies, research and methodology, tests, operations, communications/messaging and other activities and advises regarding best practices to improve censuses, surveys, operations and programs. The Committee's expertise and experiences help identify cost-efficient ways to increase participation among hard-to-count segments of the population as well as ensuring that the Census Bureau's statistical programs are inclusive and continue to provide the Nation with accurate, relevant, and timely statistics.

4. The Committee uses formal advisory committee meetings, webinars, web conferences, working groups, and other methods to accomplish its goals, consistent with the requirements of the FACA. The Committee is encouraged to use Census Regional Office knowledge to help identify regional, local, tribal, and grass roots issues, and capture regional and local perspectives about Census Bureau surveys and programs. The Committee should use technology and video/web conferencing to reduce meeting and travel costs and to more fully engage working groups and hard to count populations.

5. The Committee functions solely as an advisory body under the FACA.
